QUALITY MANUFACTURED
COOLING & HEATING IN
A COMPACT, ALL-IN-ONE,
SPACE-SAVING UNIT DESIGNED
FOR YEAR-ROUND COMFORT.

Thank goodness for Goodman.™

GOODMAN® PACKAGED UNITS: COMPACT, ALL-IN-ONE UNITS SAVE VALUABLE FLOOR SPACE

GOODMAN'S FINEST WILL KEEP YOUR FAMILY IN ENERGY-EFFICIENT COMFORT FOR YEARS TO COME.

Goodman's GPH13M –13 SEER Heat Pump provides industry-leading value and technology to homeowners and small businesses while helping keep energy bills to a minimum. Plus, our extensive product offering ensures that you get the right system for your specific cooling and heating need.

Goodman Packaged Units sit on the ground or rooftop outside your home or business and deliver quiet, year-round comfort from a single, self-contained unit. These energy-efficient 13 SEER units operate as an air conditioner during warm weather, and in the winter deliver heat pump-generated warmth. All units come fully charged and tested – direct from the factory.

Unmatched performance, efficiency and affordability. That's just what you'll get with Goodman.

PACKAGED HEAT PUMPS

The high-quality Goodman® GPH13M 13 SEER Packaged Heat Pump provides economical air conditioning, then, by reverse cycle, delivers economical heating during colder periods. Supplementary electric heat is added at predetermined temperatures during severe cold spells.

YEAR-ROUND ENERGY EFFICIENCY

Energy efficiency is key to controlling the cost of heating and cooling your home. Today's minimum standard as directed by the federal

government is 13 SEER (Seasonal Energy Efficiency Ratio) for cooling and up to 7.7 HSPF (Heating Seasonal Performance Factor) for heating. Older installed units in many homes may have actual operational efficiencies of 6 SEER or less when cooling and 6.0 HSPF or less when heating with a heat pump.

QUALITY MANUFACTURING BACKED BY WARRANTIES AND SERVICE

RELIABILITY AND LONG LIFE

One of the most critical components of a packaged heat pump is the compressor. Our GPH13M –13 SEER Heat Pump boasts a high-performance, high-efficiency compressor, which operates in tandem with our high-efficiency coil. The coil is made of refrigeration-grade copper tubing and aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively while saving you money on energy bills!

SOLID WARRANTY PROTECTION

Goodman® GPH13M –13 SEER Heat Pump have a 5-Year Limited Warranty for the compressor and all functional parts. For even greater protection and worry-free ownership, ask your Goodman dealer about **GoodCare®**, an affordable extended parts and labor warranty for your entire system.

GUARANTEED QUALITY

From Goodman, you can depend on well-designed, high-quality, thoroughly tested products, backed by some of the best standard and extended warranties in the industry. All Goodman production facilities are focused on strict, quality-driven processes. This quality focus ensures a trouble-free installation and long product life.

EXCEPTIONAL VALUE

We feel that Goodman offers the best product value for the investment of any air conditioning and heating manufacturer in the U.S.A. Goodman can do this for several reasons, including:

- As the second largest unit manufacturer of residential air conditioning and heating products, we've successfully negotiated high-volume material purchase contracts from the highest quality manufacturers in the world, which keeps our unit quality high and our manufacturing cost low.
- We continually invest in improving our overall productivity.

NATIONWIDE SUPPORT

We supply our Distribution Network through our new, state-of-the-art logistics center. And with more than 700 distribution locations and thousands of dealers coast-to-coast, you can be confident that a qualified service provider is always close by.

Thank goodness for Goodman.™

GOODMAN® PACKAGED UNITS:
YEAR-ROUND COMFORT, MANUFACTURED
WITH QUALITY, VALUE AND EFFICIENCY
IN MIND.
