

Air Conditioning & Heating

SSX16 –16 SEER R-410A REFRIGERANT HIGH-EFFICIENCY AIR CONDITIONER

ENVIRONMENTALLY FRIENDLY
AIR CONDITIONING THAT
REDUCES OPERATING
COSTS WHILE INCREASING
HOME COMFORT.

- ◆ LIFETIME COMPRESSOR LIMITED WARRANTY
- ◆ R410A ENVIRONMENTALLY FRIENDLY REFRIGERANT
- ◆ LEGENDARY GOODMAN PERFORMANCE AND QUALITY

**MONEY-SAVING ENERGY EFFICIENCY PLUS
ENVIRONMENTALLY FRIENDLY REFRIGERANT**

Thank goodness for Goodman.™

Air Conditioning & Heating

ENERGY EFFICIENCY IS THE KEY...

...TO CONTROLLING THE COST OF AIR CONDITIONING YOUR HOME.

Enjoy top quality, high-efficiency cooling and an environmentally-friendly refrigerant—get them all at a refreshingly affordable price from Goodman®.

When you purchase a Goodman® 16 SEER High-Efficiency central air conditioning system, you are making one of the best decisions possible for your home comfort. Each and every employee at Goodman strives to build heating and air conditioning systems that offer the best warranties, highest quality levels, superior performance ratings, and legendary durability standards...all at a price that will have you saying, "Thank goodness for Goodman."

R-410A REFRIGERANT

Your new Goodman 16 SEER central air conditioning system will not only provide you with money-saving cooling performance for many years, but it also features R410A refrigerant. Since this refrigerant does not contain Chlorine, it is more environmentally friendly than R-22 refrigerant, which is currently used in most air conditioning systems. Introduced in 1995, R-410A refrigerant has helped increase the durability and reliability of air conditioner compressors.

Annual Cooling Cost Savings Comparison by US City

16 SEER Savings over 8 SEER

Annual Cooling Cost Savings Comparison by US City	16 SEER Savings over 8 SEER
Newark	\$222
St. Louis	\$268
Dallas	\$425
Corpus Christi	\$653
Miami	\$868

AIR CONDITIONING SEER RATINGS

'SEER' stands for Seasonal Energy Efficiency Ratio, which is a measurement of an air conditioner's cooling energy efficiency. This rating system was developed by the U.S. Department of Energy to allow comparison between various models of air conditioning systems. This means that your Goodman 16 SEER air conditioner will deliver the same efficiency as any 16 SEER rated system.

It's easy to understand the rating system. Simply stated, the higher the SEER number, the greater its efficiency...and the lower the operating cost.*

1) The higher the SEER, the greater the efficiency – and the lower the operating cost. SEER - Seasonal Energy Efficiency Ratio - is the industry measurement used by the Department of Energy.
 2) These figures represent estimated cooling cost savings of a 3-ton system at \$0.0981/KWHR and are based on formulas published by the DOE and EPA.
 3) These figures are for comparison purposes only. Actual savings will vary according to personal use habits, square footage, location, how your unit is installed and the construction of your home.

*As compared to lower SEER equipment.

OUTSTANDING WARRANTY PROTECTION

A Goodman air conditioning system has possibly the best warranty in the home comfort industry.

The compressor in your new 16 SEER air conditioning system is covered by a Lifetime Limited Warranty. If the compressor ever fails a new one will be provided to the original purchaser of the central air conditioning system as long as they live in the same single-family residence. To receive this Lifetime Limited Warranty you must also install a properly matched indoor coil or air handler to the air conditioning system and you must register for this warranty online within 60

days after the original installation. All other parts of your air conditioning system are warranted for 10 full years after installation. To get all the specific warranty details and to register your system, visit www.goodmanmfg.com.

For even greater peace of mind, ask your Goodman dealer about Goodcare®, an affordable Extended Parts and Labor Warranty program that covers your entire Goodman brand central heating and cooling system.

IMPRESSIVE FEATURES AND BENEFITS:

GOODMAN SSX16 –16 SEER R-410A REFRIGERANT HIGH-EFFICIENCY AIR CONDITIONER

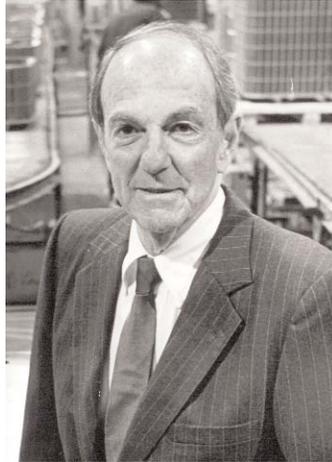

- High-performance Copeland® Scroll Compressor with Lifetime Limited Warranty
- R-410A environmentally friendly Refrigerant
- Multiple refrigerant leak tests during manufacturing process
- Entire unit run-tested in factory before shipment
- Louvered cabinet made of heavy-gauge, galvanized steel for increased coil protection
- Durable appliance-quality paint resists effects of weather and time
- High-efficiency condenser coil made of corrugated aluminum fins
- Rifled refrigeration-grade copper tubing for maximum heat transfer
- Chassis color complements any home decor
- Unique louvered sound control top for quiet operation
- Three blade fan designed for quiet operation
- Easy access maintenance panels
- Legendary Goodman quality and durability
- Performance certified in accordance with the Air Conditioning and Refrigeration Institute (ARI)

Goodman®

Thank goodness for Goodman.™

GOODMAN: A RECOGNIZED INDUSTRY LEADER

Every Goodman heating and air conditioning system is designed, engineered, and manufactured with pride. All employees follow strict, quality-driven processes to ensure that all Goodman products offer the legendary performance that has made the brand a recognized leader in the industry. This attention to quality has resulted in the Goodman family of companies becoming the second largest manufacturer of residential air conditioning and heating systems in North America.

The legacy began when Harold Goodman, a former air conditioning contractor, felt that he could build a better product. His goal was to manufacture air conditioning and heating equipment that performed more reliably, lasted longer than the competing products, eliminated time-consuming installation problems, and make air conditioning and heating products as affordable as possible.

Harold accomplished his goal and today the Goodman family of companies manufactures heating, air conditioning and ventilating equipment in modern facilities located across the United States.

Air Conditioning & Heating

Our continuing commitment to quality products may mean a change in specifications without notice.
