

HUSSmann®

Self-Contained Vertical Glass Door
Medium and Low Temperature Merchandisers

ARV/ARL
ARV – Medium Temperature
ARL – Low Temperature

ARV-650

Standard units have black door frames, bottom front grill and upper sign panel frame. Case exterior ends and case interior are painted white.

HUSSMANN®

Leadership Features for Merchandising
and Performance Excellence.

ARL-650

ARL-400

Standard Units have black door frames, bottom front grill and upper sign panel frame. Case exterior ends and case interior are painted white. Optional custom sign graphics available for additional cost.

Advanced Front Air Curtain Refrigeration System Panoramic Hinged Door Reach-In Merchandisers Maximum Display Space in Minimum Floor Space

■ Merchandising

Full-view glass doors create a panoramic display that brings the products to your customers. For merchandising, ARV and ARL models are as flexible as an open case.

■ Increase Sales

Everything in sight. Every item easy to reach. Lighted canopy stimulates sales. Optional custom silk screen designs across top available for your sales message.

■ Performance

Energy efficient self-contained refrigeration system provides lower operating costs with maximum product protection.

■ Durability

Two inch (2") thick wall construction. Steel and foamed-in-place polyurethane insulation for strong energy efficient construction. Durable polyester powder coated interior and exterior finishes.

■ Factory Tested

Every merchandiser is performance tested before leaving the factory.

■ CFC Free Refrigeration System

■ Serviceability

Top display and front grill are designed for easy service and maintenance. Bottom mounted refrigeration compartment is easy to access for repair and maintenance.

ARL models are assembled with coated tempered safety glass and thermo efficient frames to conserve energy. Anti-sweat heaters around perimeter door opening are easily replaced. All models have triple-pane tempered glass.

Doors close automatically with magnetic gaskets to provide positive door seal.

Wire display shelves are white polyester powder coated for easy cleaning. Shelves are adjustable in 1/2" increments.

One door models have horizontal top lights. Two and three door models have vertical interior lights for optimum product illumination. ARL models use HO lamps.

Refrigeration system with individually balanced components. ARV models – hermetic compressors. ARL models – semi-hermetic compressors. Both are the highest quality in the market.

Defrost operated by automatic control with pre-set timers in ARL models.

Fan switch conserves energy by turning evaporator fan motors off when doors are opened.

Merchandisers have been designed with standard dimensions so all ARL/ARV models easily line up. Continuous displays allow merchandising versatility and maximum product display in minimum floor space.

NOTE: Frozen food applications must use ARL models. We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions, or replacements for equipment previously sold or shipped. For optimum performance, these models are designed for use in air-conditioned stores where temperature and humidity are maintained at 75°F and 55% R.H. Locate case away from direct sunlight, rapid air currents and extreme temperature changes.
